LOT OVERVIEW

Sun dried robusta from smallholder gardens at 500 to 900 m in western Bali, hand sorted rather than machine polished, screening 13 up with 16 up on request. The mildest robusta on our list, usually taken by buyers who already contract Bali arabica and want one island across both lines, at whichever grade their recipe is built on.

Figures are typical for the current crop and are confirmed lot by lot on the contract. The signed grading sheet and cupping score travel with every shipment.
