

GREEN BEANS

Ijen Java Arabica Green Coffee Beans

Fully washed East Java arabica at screen 17 up, the most uniform green on our list, in grades 1 to 6.

- Arabica coffee
- Java

- Fully washed with an 18 hour ferment and mechanical drying finish
 - Grade 1 to 6 from one estate processing standard, so only the count changes
- Screen 17 up at 90% retention, the largest bean size we offer
 - Rainforest Alliance and 4C on the producer group certificate

LOT OVERVIEW

Arabica from old estate blocks on the Ijen plateau between 1,400 and 1,800 m, pulped, fermented around 18 hours, washed, and dried with a mechanical finish. Clean, nutty, and mildly sweet, with the tightest screen distribution we handle. Because the estates process to one standard, the difference between grades here is almost purely the defect count: Grade 1 cups 83 to 85 points, and the lower grades are taken as blend volume.

Figures are typical for the current crop and are confirmed lot by lot on the contract. The signed grading sheet and cupping score travel with every shipment.
