LOT OVERVIEW

Toraja green roasted at Agtron whole bean 56 to 65, held back deliberately so the clove, black pepper, and dark fruit of the highlands survive into the cup instead of being flattened into roast character. Organic certified, packed in 250 g and 1 kg valve bags for retail and cafe programmes, whole bean or ground, on the grade of green the programme is priced at.

Figures are typical for the current crop and are confirmed lot by lot on the contract. The signed grading sheet and cupping score travel with every shipment.
