LOT OVERVIEW

Our Sumatran green roasted on our own drum line and packed in one-way valve foil within seven days of roast, whole bean or ground to your brew method, under your label or ours. Grade 1 green is what a single origin bag should be built on, and Grade 3 to 5 is what keeps a house blend or a price led retail line on its cost target.

Figures are typical for the current crop and are confirmed lot by lot on the contract. The signed grading sheet and cupping score travel with every shipment.
